

Install CUHK Client Certificate on Safari

(This user guide is applicable to Safari 6 or above)

1. Save your client cert to local drive. Double-click the cert and you will be asked for a password.

Input the **PKCS12 Password** which can be retrieved from [CUHK CA Website](#).

Click **OK**.

2. Follow the steps below to check whether the client cert has successfully been installed.

a. In **Finder**, go to the menu **Go** and **Utilities**

b. Click **Keychain Access**

c. In **My Certificates** menu, you should see your client cert listed there. You can click on the item to view its details.
