4. A wizard will guide you	Certificate Import Wizard	
to import the Root CA cert. Click <b>Next</b>		Welcome to the Certificate Import Wizard         This wizard helps you copy certificates, certificate trust lists, and certificate revocation lists from your disk to a certificate store.         A certificate, which is issued by a certification authority, is a confirmation of your identity and contains information used to protect data or to establish secure network connections. A certificate store is the system area where certificates are kept.         To continue, click Next.
