Connect to Office 365 Mail with Android

(This user guide is applicable to Android 6.0 or above and suits Samsung devices the best; while other devices will have slight difference on the user interface or buttons.)

You can choose either way below to check out Office 365 Mail on your Android devices

Contents

Setup of Office 365 Mail with Android built-in Email App.................................................................1

Reference from Microsoft:.....................................................................................................................8

Setup of Office 365 Mail with Android built-in Email App

1. Open the app Email.

Then, input your CUHK Office 365 Account:

Staff  Login ID: alias@cuhk.edu.hk (Check out your email alias)
Password: OnePass Password**

** For staff having departmental MS Exchange (Outlook) accounts, you should use your MS Exchange (Outlook) password to log in here. By changing OnePass (CWEM) Password after 12 May, 2016, you can then use OnePass Password to log in here and also departmental MS Exchange (Outlook) email.

Tap Next.
2. Choose **Microsoft Exchange ActiveSync**.

If your device fails to connect your mailbox automatically, please choose **manual setup** and enter the configuration as below (illustrated in Figure 1 Manual Setup).

**Domain / Username:** alias@cuhk.edu.hk (Check out your email alias)

**Password:** OnePass Password**

** For staff having departmental MS Exchange (Outlook) accounts, you should use your MS Exchange (Outlook) password to log in here. By changing OnePass (CWEM) Password after 12 May, 2016, you can then use OnePass Password to log in here and also departmental MS Exchange (Outlook) email.

**Server:** outlook.office365.com

**Connection:** SSL

**Port:** 993 or 443

![Figure 1 Manual Setup](image)
3. Click **OK** to Activate Email.

4. Accept the Remote security administration.
5. Click **ACTIVATE**.

6. This will be the interface of your alias@cuhk.edu.hk mail box.

Click **More** for further settings.
7. Click **Settings**.

8. Click into your account.
9. Click **Sync schedule**.
Set your preferred sync schedule and sync options.

10. Set your preferred sync schedule and sync options. You can then start checking out emails in your Office 365 Mail.
• For the users who enrolled DUO Two Factor Authentication (2FA), then input either one of the following forms of password (11A, 11B or 11C), follow the format exactly the same as shown:
• For others, the setup is completed.

11A. **password** (DUO Mobile App – Push)

Click **Send Me a Push**

DUO Notification will be prompt on your mobile.
Tap **Login request**

OR

Open the DUO Mobile App on your mobile device, then **tap on the notification message**, a Login Request with the information of requesting source is displayed.

Tap **Approve**.

Reminder: Duo Push is not available offline. Please ensure you got a good Internet connection when using this method. Or, you switch to log in with passcode which does not required an Internet connection.

11B. **password,passcode** (DUO Mobile App – Generate Codes)

You can get the **passcode** from your DUO Mobile App.
**Open the DUO Mobile App** on your mobile device, then **tap on the key icon** next to your account, a one-time passcode is generated.

Click **Enter a Passcode, Log in** with **DUO passcode**.
11C. **password,bypasscode** (Use a temporary DUO Bypass Code)

In case you have problem with your mobile (e.g. forgot to bring, malfunction, lost or stolen) and cannot provide the 2nd factor for VPN connection, you can generate a temporary DUO Bypass Code by yourself via DUO Self-Service Portal at [https://duo.itsc.cuhk.edu.hk](https://duo.itsc.cuhk.edu.hk).

Click **Enter a Passcode, Log in** with **DUO Bypass Code**.
