Connect / Use CUHK VPN for iOS
(This user guide suits iOS 11 the best and is applicable to iOS 8/9/10 with slight difference in user interface.)

Table of Contents
A. Add a new VPN profile .................................................................................................................................................. 2
B. Connect to CUHK VPN .................................................................................................................................................. 5
C. Disconnect to CUHK VPN ............................................................................................................................................... 7
A. Add a new VPN profile

1. Open Settings menu. Click General.

2. Click VPN under General menu.
3. Click **Add VPN Configuration**...

4. Click **Type**. Choose **L2TP** and back to **Add Configuration**
6. Enter the VPN configuration information:

(i) Description: “CUHK VPN”
(ii) Server: “vpn.cuhk.edu.hk”
(iii) Account: (your_computing_id)*
(iv) Password: (your_onePass_password)
(v) Secret: ipsec-vpn

*Computing ID:
s1155xxxxx for students
bxxxxxx for staff

7. Click Done.
## B. Connect to CUHK VPN

1. Open **Settings** menu. Turn on **VPN**.

(For Staff only) If you have enrolled your account to use DUO two-factor authentication, you need to provide the 2nd factor to log in. Please refer to step 2 below. If not, please directly go to step 3.

2. A notification will be popped out from **DUO Mobile** will for your approval.

   Otherwise, open the mobile app **“Duo Mobile”**

   Click the **green bar “Request Waiting”** on the top and click **Approve**.
3. You are now connected to CUHK VPN. *Symbol will be shown on the top if VPN has been connected successfully.

*If you do not see the bar, please check if you are connected to the internet and slide down to refresh the app.
C. Disconnect to CUHK VPN

1. Open Settings menu.
   Turn off VPN.

*Symbol will be disappear on the top if VPN has been disconnected.
