A. Detect Wi-Fi Signal of CUHK1x and connect to CUHK1x..... 1

A. Detect Wi-Fi Signal of CUHK1x and connect to CUHK1x

<p>1. From the screen, select Settings  and then Wi-Fi .</p> <p>2. Move the Wi-Fi slider to On.</p> <p>Select CUHK1x from the available wireless networks.</p>	 <p>The screenshot shows the 'Wi-Fi' settings page in iOS. At the top, there is a back arrow and the title 'Settings' followed by 'Wi-Fi'. Below this, the 'Wi-Fi' toggle switch is turned on and is highlighted with a red rectangular box. Underneath, there is a section titled 'CHOOSE A NETWORK...' with a signal strength indicator. A list of available networks is shown, including CSL, CSL Auto Connect, CUguest, CUHK, CUHK1x, eduroam, Universities WiFi, Wi-Fi.HK via CUHK, and Y5ZONE. The 'CUHK1x' network is highlighted with a red rectangular box. At the bottom, there is an 'Ask to Join Networks' toggle switch.</p>
